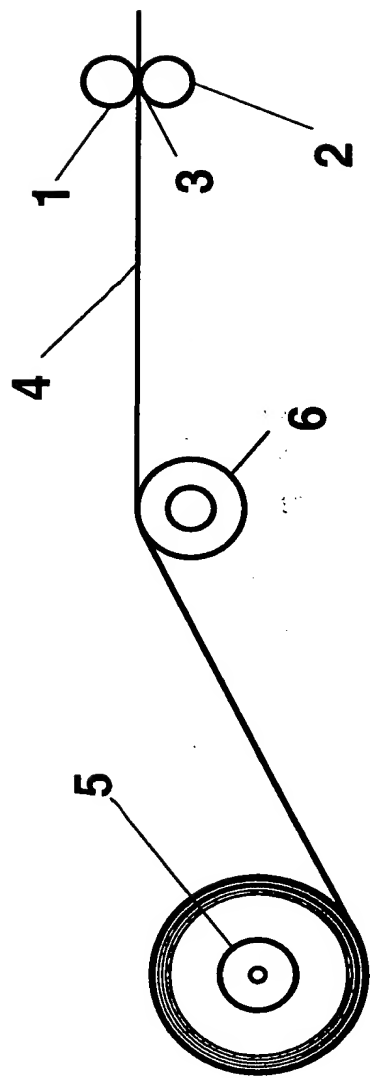

Fig. 1

The diagram illustrates a mechanical assembly, possibly a turbine or compressor section, with a central curved blade or vane (4). The assembly is supported by a base (1) and a housing (2). The blade (4) is shown in a cross-section with diagonal hatching. The housing (2) is a rectangular block with a central opening. The blade (4) is mounted on a shaft (3) and is surrounded by a casing (6). The casing (6) has a central opening. The blade (4) is shown in a curved position, with a dashed line indicating its original position. The diagram includes a 90-degree angle indicator and a grid pattern at the top.

Labels 1 through 8 identify the following components:

- 1: Base or support structure.
- 2: Housing or casing.
- 3: Shaft or mounting.
- 4: Central curved blade or vane.
- 5: Inlet or outlet passage.
- 6: Casing or housing section.
- 7: Inlet or outlet passage.
- 8: Blade or vane tip.
